State History from a Christian Perspective

Thank you so much for the wonderful curriculum! It gives me goosebumps & I'm excited to start. – Colleen

I just wanted to tell you how much we enjoyed using your materials. Our family was new to the state of North Carolina so as a family we used your state curriculum with the My State Notebook from Abeka. We thoroughly enjoyed the study and learned so much about our new state. I especially liked how easy it was to use your program. –Donna

As I have been going through your Student Books, I have been deeply impressed by, and am so grateful for, the strong and pervasive Christian nature of the content. –Debbie

Joy Dean's Pennsylvania State History student booklet is a welcomed time saving tool. It is packed with useful information, is straight forward and fun to use. –Mary

When I lived in Indiana I did your program with my oldest and loved it. It was very thorough but not overwhelming. Now I have moved and the other kids need state history and of course I would love to use your program again! –Janet

Thanks for creating the Student Booklet to go with the My State Notebook. I taught two classes of Ohio State History (grades 5-8) at a [homeschool co-op](#) last year and utilized your materials. We all had a lot of fun while learning about our state. The kids want to continue their notebooks while they are traveling this summer. –Holly

I have used your state history books as a companion to Abeka's My State Notebook. The children loved them. The books made teaching state history much easier and they were very enjoyable for my children. I taught my [6 year old](#) this year also and she could not wait to do state history each day.

I just wanted to tell you that we got our books yesterday and are so happy with the curriculum. I am grateful that it fits so nicely into the Abeka curriculum we are already doing. The first lesson was a great reminder of God's sovereignty. –Michelle

Fifty States Under God

I absolutely loved the curriculum as I reviewed it and you told me about how it was set up. I loved the Christian perspective that this curriculum provides and the stories of God's providence that I spent two nights staying up until 1:30 a.m. reading the curriculum. . . not because I was planning my next school year, but because I found it so fascinating that I wanted to keep reading it! I'm excited about history and can't wait to start this subject! I will gladly recommend this curriculum to others as well. I've homeschooled for 11 years now and I've been through a lot of curriculums, so I'm not easily impressed. You've impressed me! --Michelle

At the beginning of this year, my 12 year old daughter began using "Fifty States Under God" for 3rd-12th Grade by Joy Dean. Now, you must realize that my daughter is a very reluctant reader, has never been very independent in her studies, and she is also very kinesthetic. After only a few pages of this curriculum, she was coming to me with amazing facts that she was learning about the different states. I was SOLD at that moment! Anything that could keep her attention and cause that much excitement had my vote! --Cyndi Kinney, R.N., Ph. D., Knowledge Box Central

My 3 children are doing well with the curriculum. This is the first year we've really kept up on history! Thanks for your products! Julie

First I have to say, we absolutely LOVE this curriculum! We studied 50 States Under God alongside the Geography of 50 States last year and it [was] our favorite part of our day. This semester we're studying our state. Thank you for all the work you put into this curriculum. I can't imagine how many hours went into it. This has been very well worth the investment we made in it for our 5 daughters! --Angie

I wanted to thank you for your exceptional materials and to tell you how *very, very glad* we are to have found them! My 9-year old and 12-year old are currently in the *Fifty States Under God* books. My 9-year old tells me this is her very favorite subject now! In fact our entire family is enjoying the information in these books. I cannot tell you how relieved I was to find a curriculum that is so user-friendly in format and content--wish I'd discovered it years ago! Again, thank you for serving the Lord with your gifts. You have blessed us with them and I can confidently and happily refer other homeschoolers to your products and counsel. --Lori

Thank you. This is a totally awesome overview study. I have use both of the 50 state history books with my children. It definately [sic] sparks a deeper interest. I am looking forward to using the individual texas state book when we come to that portion of our studies. --Kimberlee

We are so excited about starting this book. My dad is a retired school teacher. He taught history, geography, and government for 40 years. When I showed him our 50 States book and our State History book, he was very impressed. I think he'll want to join us for our study! --Carrie

Geography of the Fifty States

I received mine very quickly and we're already using it. I LOVE IT!!! Thank you for creating it and making it available to others like this! --Wendi

First I have to say, we absolutely LOVE this curriculum! We studied 50 States Under God alongside the Geography of 50 States last year and it [was] our favorite part of our day. This semester we're studying our state. Thank you for all the work you put into this curriculum. I can't imagine how many hours went into it. This has been very well worth the investment we made in it for our 5 daughters! --Angie

Your Geo. textbook was wonderful! Since [I teach that subject in a coop](#) and we only meet once a week, we are continuing the second half this year. This year our coop grew from 14 children to 79, pre-school all the way through highschool. What a blessing, each mom is in charge of teaching a subject and is not allowed to leave campus. I have been very busy through the summer with the board working everything out. I also have 3 or 4 new students that have ordered the book from you. It is so rewarding seeing the students know the states and capitals in statehood order, placing them on the map, the region and a little bit about each one. Thanks so much for the knowledge you put together.

State History from a Christian Perspective

We are pleased to write a letter of recommendation for Joy Dean who authors the Ohio State History student Booklet we've used for years. The lesson plans are easy to follow. It is laid out well so students know what is expected and can be prepared for upcoming pages. The student booklet relates well to the

A Beka state history book and saves time and effort for both students and teachers. The pre-made tests are an asset which assures that appropriate material is taught. –Liberty Christian Academy, Ohio

Joy Dean's materials are great! The facts and information are presented in a clear and concise manner. My students enjoy cutting out and gluing the materials into the Abeka state notebooks. The finished product is a "keeper" for later reference. –Sachse Christian Academy, Texas

Your suggestions within the curriculum to add reports or to do in-depth study on a topic helps the teacher to create a more challenging experience for his or her students that have the time and interest and yet can also be simplified when needed. Since using the Indiana History curriculum you have designed, I feel I have a well-organized format with which to work to attain the goals that I have for my class. –
Mooreville Christian School, Indiana
