### NOTES FOR USING OUR STATE HISTORY COURSE FOR SECONDARY-LEVEL:

The front section of our Master Lesson Plan is a teacher-directed, 30-lesson plan that can be easily adjusted to your desired course length and difficulty level by using the Expansion Suggestions in each lesson. **In the Appendix are Independent Study Guides for a 6-week program and a one-semester program.** These are written to the student and are the only part of our entire program that may be photocopied **within one class or family** only. The Student Booklet may not be copied, you will need one book per student. **For a high school level, you will want to have the students make the project notebook in a 3-ring binder (binder is provided by the student).** This option teaches organizational skills and allows flexibility for adding additional research projects. **In any setting with more than one student,** students can divide a list of topics for each research project, then share their research through oral and written reports that can be added to each student's notebook. **Our Student Booklet includes a study guide on your state constitution** (assigned in the one-semester course or can be added to the six-week course). It is an interesting and enlightening study on the Biblical concept of delegated authority and responsibility as well as inter-personal relationships. You may obtain a copy of your state constitution online or from your library. Students read through the constitution, answer the study guide questions, then take a test. **Another project that is included is a career study** to be done during the economy section.
