NOTES FOR USING OUR STATE HISTORY COURSE FOR SECONDARY-LEVEL:

The front section of our Master Lesson Plan is a teacher-directed, 30-lesson plan that can be easily adjusted to your desired course length and difficulty level by using the Expansion Suggestions in each lesson. **In the Appendix are Independent Study Guides for a 6-week program and a one-semester program.** These are written to the student and are the only part of our entire program that may be photocopied **within one class or family only.** The Student Booklet may not be copied, so you will need one book per student. **For a high school level, you will want to have the students make the project notebook in a 3-ring binder (binder is provided by the student).** This option teaches organizational skills and allows flexibility for adding additional research projects. **In any setting with more than one student,** students can divide a list of topics for each research project, then share their research through oral and written reports that can be added to each student's notebook. **Our Student Booklet includes a study guide on your state constitution** (assigned in the one-semester course or can be added to the six-week course). It is an interesting and enlightening study on the Biblical concept of delegated authority and responsibility as well as inter-personal relationships. You may obtain a copy of your state constitution online or from your library. Students read through the constitution, answer the study guide questions, then take a test. **Another project that is included is a career study** to be done during the economy section.

- Grade 3 may use either the *Funbook* or the course built around *My State Notebook*. Most third graders do well with *My State Notebook*.
- The same Student Booklet is used for Grades 3-12. The difficulty level can be easily and even individually adjusted using instructions and optional projects given in the Master Lesson Plan Book. Students will cut apart the Student Booklet and use the text, maps, and state symbol pictures as the basis for making a project notebook. **Quizzes, Tests, and Answer Key** are in the back of the Student Booklet, along with an optional study guide on your state constitution and a test on the constitution.
- The project notebook for our grade 3-12 course may be made in a 3-ring binder (to be provided by the student) or in A Beka Book's pre-formatted *My State Notebook*. Creating a notebook in a binder allows flexibility in content and teaches organizational skills. **For Grades 3-8 we recommend the use of My State Notebook**, as this allows the student to focus on the content and still construct a beautiful notebook. **Our materials are compatible with either the 1997 edition or the 2008 edition of My State Notebook.**

TESTIMONIALS FROM TEACHERS WHO HAVE USED OUR COURSE: "The lesson plans are easy to follow. It is laid out well so students know what is expected and can be prepared for upcoming pages. The student booklet relates well to the A Beka state history book and saves time and effort for both students and teachers. The pre-made tests are an asset which assures that appropriate material is taught." --a teacher in Indiana "After more than five years of teaching fourth grade in private Christian schools, I finally found the state history materials I had been seeking. Sorting through and organizing all the wonderful materials available on Texas history was time consuming and frustrating. I never felt it was "right" for my fourth graders. Joy Dean's materials are great! The facts and information are presented in a clear and concise manner. My students enjoy cutting out and gluing the materials into the Abeka (sic) state notebooks." --a teacher in Texas "Your suggestions within the curriculum to add reports or to do in-depth study on a topic helps (sic) the teacher to create a more challenging experience for his or her students that have the time and interest and yet can also be simplified when needed. Since using the Indiana History curriculum you have designed, I feel I have a well-organized format with which to work to attain the goals that I have for my class." --a teacher in Indiana
